### Cabling

We stock a large range of cables for networking, printers and other devices. We can also provide onsite cabling for networking, telephone, power and computer connectivity. No job too small or large, ask us for a free quote today.

### Consultation, Service and Support

Since our inception in 1986, Jennings Computers has been committed to quality support for our clients, ensuring satisfaction and a mutually rewarding relationship. Our unwavering goal is for you to prosper through the technical solutions and support we provide. We specialise in networks consisting of 5 to 150 computers, although we can cater for smaller networks, right down to a single computer.

Our support options are:

Casual inhouse workshop support \$72 per hour (3 to 4 days turnaround, often less, for standard IT solutions)

Inhouse/onsite/remote/helpdesk support \$108 per hour (Priority, generally same day service, for standard IT solutions)

Network engineering inhouse/onsite/remote/helpdesk support \$150 per hour (Priority, generally same day service, for advanced IT solutions)

PC Tune Up \$198 (An exhaustive overhaul of your computer, tackling all the major issues such as viruses, spyware and updates)

All support options are billed in 6 minute blocks.

Support packs are an excellent way to save money, reduce paperwork and manage IT support. Support packs are purchased in advance and offer up to 20% off our regular prices. They can be used for any combination of the above support options.

Small support pack \$374 (Save 15% off our regular price, get \$440 worth of support at the prices above for only \$374. This reduces the above support options to \$61.20, \$91.80, \$127.50 and \$168.30 respectively.)

Large support pack \$680 (Save 20% off our regular price, get \$850 worth of support at the prices above for only \$680. This reduces the above support options to \$57.60, \$86.40, \$120 and \$158.40 respectively.)

**Special offer: If you have 5 or more computers, we offer a free site evaluation to discuss how we can make technology work for you. There's no obligation and no risk, so contact us today.**

### Broadband Internet

We are a premium agent for WestNet ADSL, which has been continual voted best ISP in Australia for customer satisfaction. We can help you with the advice, paperwork, ADSL hardware and installation. There is a lot to consider when choosing a broadband supplier and we have compiled a document called "What you need to know about ADSL", which is available on our website. This is some of the quality ADSL hardware we stock:

ADSL filter/splitter \$15

Billion 4 port router/ADSL modem \$110

Billion wireless router/modem \$185 Plus \$72 Wireless Security Setup

NETGEAR 54Mbps Wireless USB 2.0 Model: WG111 \$49

Belkin 4 Port G Access Point Only Model # F5D7230AU4 \$102

Belkin 4 Port N Access Point Only Model # F5D8233AU4 \$182

### Broadband Phone

Broadband phone (also known as VoIP) uses a broadband connection to make and receive phone calls over the internet. You can use your existing phones and the computer doesn't even need to be on. The main advantage of broadband phone are the significant cost savings (10c untimed calls to all Australian landlines, 27c per minute to mobiles, 3.5c per minute to most overseas landlines). One incredible feature is the ability to have a phone number in another capital city for only \$5 per month extra (with no call forwarding costs). There is no doubt broadband phone is the way of the future, talk to us and slash your phone bills. The hardware is available at the following prices:

Weblink to sign up directly with Engin [https://my.engin.com.au/order/?dealer\\_code=0884](https://my.engin.com.au/order/?dealer_code=0884)

### Dialup Internet

If you're not ready for the commitment of broadband or it is not available in your area, we run our own dialup service. Jennings Internet offers the "relax" plan, which is \$8 per month for four hours and \$2.50 per additional hour, capped at \$24.95. With no joining fees and no long term commitment, Jennings Internet offers flexibility at a value for money price.

Dlink PCI internal modem card 56k \$26

### Website and email hosting, domain registration, website development and co-location

If you require email or website hosting, Jennings Computers have you covered. Unlike "virtual ISPs", which use someone else's infrastructure, Jennings Internet has its own point of presence in the Geelong CBD. What this means is we have complete control, can make instant changes and fix issues quickly and efficiently. If you host your website or email with a virtual ISP, often the equipment is located overseas and fixing problems can take days or weeks. For business, that's unacceptable, that's why we run our own equipment. We also handle domain registrations and renewals, creating and updating websites and email virus/spam scanning. We can also host your hardware in our secure premises at very competitive rates. Our most popular services include:

Website and email hosting 1 month \$29.95

Email hosting 1 month \$24.95

Domain registration 1 year (.com/.net/.biz/.info/.org) \$65

Domain registration 2 years (.com.au/.net.au/.org.au) \$135

### Database development

Do you have a specific requirement that off the shelf software packages cant handle? We can create a custom designed database tailored to your specific needs.

### We love a challenge

With over 23 years in business and a strong technical support team, we can cater to your most challenging IT requirements. We strive to provide proven, cost effective solutions on time and on budget.
